## ABOUT ME

Computer Science graduate with hands-on experience in web application development and growing expertise in the Microsoft Power Platform. Strong foundation in JavaScript, HTML, CSS, REST APIs, and Agile development. Certified in Microsoft Power Platform Fundamentals (PL-900) with practical project experience using Power Apps and Power Automate. Motivated to grow as a junior developer working with frontend technologies, low-code platforms, and modern Microsoft technologies in a consulting-oriented environment.

## WORK EXPERIENCE

**IT STUDENT ASSISTANT (HIWI) – TECHNISCHE HOCHSCHULE BINGEN** – 03/06/2024 – 30/06/2025 – BINGEN AM RHEIN, GERMANY

- Built responsive, cross-device web applications using **React**, **JavaScript**, **HTML5**, **CSS**, and **Node.js**, ensuring consistent UI/UX and reliable performance across platforms.
- Integrated **REST APIs** to support data exchange between systems.
- Analyzed user workflows to improve digital processes and interfaces.
- Supported decision-making through clear documentation and simple data insights.

**IT WERKSTUDENT – PROSTEP AG** – 03/04/2023 – 29/02/2024 – DARMSTADT, GERMANY

- Contributed to internal enterprise applications using **Angular** and **TypeScript**, focusing on structured and maintainable UI components.
- Worked within **Scrum** teams, supporting requirement clarification and coordination between developers and stakeholders.
- Maintained documentation and task tracking using **Jira** and **Confluence**.
- Completed a two-month internal DevOps and cloud training program, gaining foundational understanding of system automation and platform operations.

**CLOUD SUPPORT & DELIVERY – MOM SOLUTIONS PVT. LTD.** – 15/07/2021 – 15/01/2022 – BANGALORE, INDIA

- Supported **Azure-based** environments by analysing system logs, monitoring metrics and assisting in issue resolution.
- Created structured documentation for system setups, troubleshooting steps and operational guidelines.
- Managed operational data in Excel for scheduling, billing and attendance, improving data accuracy and reporting reliability.

## PROJECTS

### Enterprise Request & Multi-Level Approval System | Power Platform

- Designed and implemented an end-to-end request and multi-level approval system using **Microsoft Dataverse**, including normalized entities, relationships, approval history and audit-ready status tracking.
- Built a **Model-Driven Power App** for internal users and approvers to submit requests, manage approval stages, capture decisions and monitor request lifecycle in real time.
- Developed a **Power Automate-based approval engine** with Dataverse triggers, conditions and loops to create approval levels dynamically, handle approvals or rejections, and update final request status.
- Integrated **Power Pages** for external users to submit and track requests via a secure web interface with role-based access.

## ● AI-Powered Frontend Chatbot | Programming

- Developed an **AI-powered frontend chatbot** using **Angular, JavaScript, HTML, and CSS**, focusing on interactive and user-friendly UI design.
- Implemented core features such as **real-time chat interaction, message history, and responsive layout**.
- Strengthened understanding of **frontend architecture, API integration, and user interaction patterns**
- Gained practical experience in combining **AI concepts with frontend web development**

## ● EDUCATION AND TRAINING

06/10/2022 – 24/09/2025 Bingen am Rhein

**M.SC. COMPUTER SCIENCE** Technische Hochschule Bingen

15/08/2019 – 06/07/2022 Pune, India

**BACHELOR OF COMPUTER APPLICATION** D Y Patil International University

## ● CERTIFICATIONS

Microsoft

**Microsoft Power Platform Fundamental (PL-900)**

Scrum Study

**Scrum Fundamental Certified (SFC™)**

Google

**Foundations of Project Management**

Coursera

**Becoming an SAP Professional**

## ● SKILLS

**Microsoft Power Platform**

Power Apps (Model-Driven & Canvas) | Power Automate | Power Pages | Microsoft 365 Fundamentals | Dataverse

**Web & Integration Skills**

JavaScript | Angular | React | TypeScript | Rest APIs | HTML | CSS/SCSS

**Software Development**

Application Logic | Modular Development | Workflow Understanding | Debugging | Artificial Intelligence | Clean-Code

**Tools**

Power Platform | Git | Jira | Confluence | VS Code | Postman | Excel
